### **Board Games and Puzzles**

Do you have unused board games and puzzles at home (with all their pieces) that are not being used? If you have games at home, please consider donating them to the school to be used in classes for inclement weather activities. Board games encourage co-operation with others, and are a good way for students to expand their thinking skills. Many games that may be sitting on your shelves at home will find a new audience here! Please send any games or puzzles in by the end of the month, so that we can take inventory.

## **Please Note**

When your child will be late or absent, please be sure to call the school absentee line @ 734-1255.

We have over 600 students in our school. The office becomes very busy in trying to get messages to students. Your child should be aware of the after school arrangements before they come to school. Any changes should be written in your child's agenda. Messages for students should be for emergencies only.
